

The 13th MARC Users' Meeting, 1993

Experimental and Numerical Analysis of High Strain-Rate Compressional Behavior of 6061-O Aluminum Alloy	95
Institute of Aeronautics and Astronautics National Cheng Kung University	
Study on Simplified Estimation of J-integral Under Thermal Loading	170
Central Research Institute of Electric Power Industry	
Some Issues in the Adaptation of MARC to a Parallel Computing Environment	319
D. W. Keck Int. Conf. On Computational Methods in Engineering	
Hot Clamp Design for LMFBR Piping Systems	331
ASME Journal of Pressure Vessel Technology, Vol. 115, pp. 47-52
