

The 16th MARC Users' Meeting, 1996

I Keynote Speech

Global-Local Analysis of Thermoforming Process of Thermoplastic Composite Laminates by the Homogenization Method 9
The University of Michigan

Design of Microstructures for Periodic Composite Materials Finite Element Method 25
The University of Michigan

II Technical Presentations

Strech Forming Springback Analysis of Large Aircraft Skin Panels 89
The Boeing Company

Mechanical Thermal Analysis for Non-isothermal Upsetting of Ti-6Al-4V Alloy 91
National Cheng-Kung University

Overview of MARC Applications at Philips 101
Philips

Design of Precision Forming Process by the Finite Element Method 109
Pusan National University

Dynamic and Compression Analysis of Golf Club by the MARC 119
Pusan National University
